

EUROPEAN BEAM
OCCASIONAL USE SERVICES

breaking news

international sports

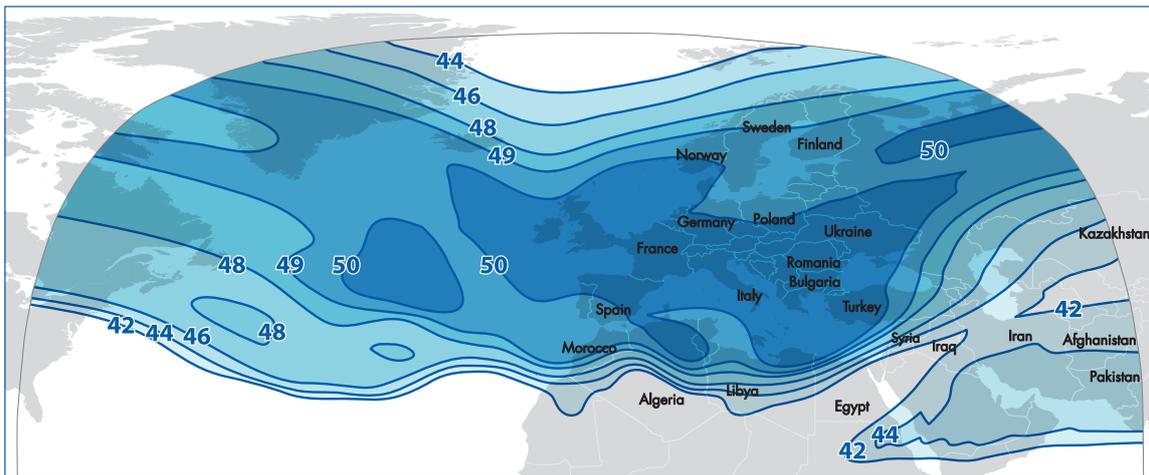

live events

Manage your Broadcast Requirement with Tailored Occasional Use Services

ABS Occasional Use (OU) service is now available on the ABS-3A European Beam. The wide Ku-band European beam extends from North America, across Europe to Moscow providing optimal coverage for diverse media requirements.

The ABS OU service provides reliable and flexible ad-hoc capacity for contribution and distribution of your content to any location in the beam footprint. Transmit your breaking news, live international sports and events.

Benefits:

Dedicated 24/7 booking office

Reliable satellite capacity for critical media content

Ad hoc short term to long term capacity use

Delivery of cutting edge sporting and news events across Europe

Support planned and unexpected events as they happen

Round the clock technical support

About ABS:

ABS is one of the fastest growing global satellite operators in the world. ABS offers a range of tailored solutions including broadcasting, data, mobility and telecommunication services. Operating a fleet of satellites, ABS covers 93% of the world's population across Africa, Asia Pacific, the Americas, Europe, the Middle East, CIS and Russia. ABS has strategic alliances and partnerships with state-of-the-art communications hubs to deliver the best satellite solutions.
